HAVE CONFIDENCE YOU ARE MAKING THE RIGHT DECISIONS... AND RELAX

Business demands keep growing and the volume of data is exploding. All organizations face the challenge of transforming raw data into intelligence that is essential for decision makers at all levels.

A business intelligence strategy on one single platform that encompasses data integration, data warehousing, query, reporting and analytic intelligence makes sure that:

- all departments can share the same high quality view of corporate data;
- information can be delivered through interfaces adapted to individual users' needs;
- decision makers can access and make their own reports & analyses, spend less time looking for information and more time driving strategic decisions;
- data quality, security and metadata is managed centrally.

No matter what department you work for, the SAS business intelligence platform offers you simple and easy solutions adapted to your needs.

Don't just take our word for it. We invite you to try out SAS in a workshop, guided by the scenarios that fit your needs.

EXECUTIVE
DINNER

be **i**ntelligent

Every year, SAS Belgium & Luxembourg opens its annual Business Intelligence Conference "SAS Forum" with an exclusive dinner for executives.

This dinner gives executives from different industries the opportunity to share their strategies, challenges and vision and we sincerely hope you will join us.

Last year about 130 executives attended the evening with Herman De Croo as our guest speaker. This year, we have the pleasure to announce mister Axel Miller, Chief Executive Officer of Dexia Bank as our keynote speaker.

Enclosed you will find the invitation for the SAS Forum conference on 13 October. Please feel free to invite your colleagues or team members to visit this stimulating and informative environment for sharing ideas and experience with business and IT professionals.

We look forward to welcoming you to our opening Executive Dinner on Wednesday 5 October and to our SAS Forum on Thursday 13 October.
